seven jewish children

A Play for Gaza

By Caryl Churchill

7 Jewish Children, by Caryl Churchill is a seven scene play taking place from Kristalnacht, 1939, through WWII, to Gaza today. Adults are discussing / arguing how to best protect children from the horrors of the holocaust & the violence in the Mid East. This is a powerful and clear statement depicting how thoughtful, aware people can disagree on what path to take and which voices will be heard. A discussion will follow with audience participation. As required by the licensing agreement there is no charge, and a voluntary donation for the Palestinian Medical Aid will be taken. The entire presentation will take about an hour.
